Projects Built: 4 • Technologies: 20+ • GitHub Repositories: 20+ • Hours Building: 800+

Professional Summary

Product Engineer and Computer Science student passionate about building scalable software products that solve real-world problems. I enjoy designing modern full-stack applications with a strong focus on clean architecture, maintainability, performance, and user experience. My work spans enterprise SaaS platforms, healthcare systems, desktop software, and developer tools.

Featured Projects

Flysta — Enterprise SaaS

Flysta is a modern Transportation Management System designed to simplify logistics operations and help transport businesses manage their workflow through a single scalable platform.

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express.js, PostgreSQL, JWT

Forgeo — Developer Growth Platform

Forgeo is a developer growth platform that helps programmers become real software engineers. Instead of teaching through tutorials, it teaches through real-world missions and engineering thinking.

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, PostgreSQL

NutriLab — Healthcare SaaS

NutriLab is a comprehensive healthcare SaaS platform designed for nutritionists and dietitians to manage their clinics digitally.

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express.js, PostgreSQL, JWT

FitFlow — Desktop Software

FitFlow is a modern desktop Gym Management Software developed by Forgeo. It provides gym owners with a fast, reliable, and easy-to-use desktop application for managing daily operations.

Tech Stack: Electron, React, TypeScript, Prisma, SQLite

Technical Skills

- Frontend: React, TypeScript, Tailwind CSS, JavaScript, HTML & CSS
- Backend: Node.js, Express.js, REST API Design
- Database: PostgreSQL, Supabase, SQLite, Prisma
- Tools: Electron, Git, GitHub, VS Code, Figma
- Languages: Python

Core Competencies

- | | | |
|------------------------|----------------------------------|-----------------------------|
| • Product Engineering | • Full Stack Development | • SaaS Architecture |
| • REST API Development | • Authentication & Authorization | • Responsive UI Development |
| • Database Design | • Performance Optimization | • Clean Architecture |

Education

Bachelor of Technology (Computer Science)

Sri Aurobindo Institute of Technology, Indore
